Senior Java Developer with a passion for learning and collaboration, delivering scalable solutions through expertise in diverse technologies and a commitment to innovation and excellence.

### PROFESSIONAL EXPERIENCE

Aiden AI, Bangalore, IND

Aug 2023 – Present

#### Senior Product Engineer

- Engineered the backend for a sophisticated testing tool that automates front-end and interface testing using Java 17, Angular 16, and Postgres.
- Integrated machine learning algorithms to automate data generation and workflow processes, significantly improving the tool's efficiency and precision.
- Contributed to a tool designed for advanced technology and code migration, where machine learning played a crucial role in automating and optimizing the backend processes.

Infosys, Bangalore, IND

Apr 2021 – Aug 2023

#### System Engineer

- Led the development of a platform facilitating the seamless migration of automation workflows between multiple RPA products, utilizing Angular 14, Spring Boot (Java), and MySQL.
- Designed and developed reusable bots to automate various business processes across multiple domains, enhancing efficiency and scalability, utilizing Java, Python.
- Gained proficiency in multiple technologies, including Java, SQL, and Angular, through extensive training. Developed applications as part of project work.
- Recognized as a top performer in Infosys Training, earning additional incentives for exceptional performance over one year.

### EDUCATION

PSG College of Technology, Coimbatore, Tamil Nadu

2020
